

TURN YOUR EMPLOYEES INTO HUMAN FIREWALLS

With cybercrime on the rise in this new digital world our companies are more at risk than ever before. Your employees remain your first level of defense against sophisticated attacks.

Interactive Security AWARENESS TRAINING

Our security awareness platform boasts thousands of interactive security awareness training modules in 34+ languages that can be shared with employees.

Simulated PHISHING ATTACKS

Test your users with simulated phishing attacks and view statistics on the numbers of opens and clicks. Selectively retrain these users to strengthen your security posture.

Business Driven ADVANCED REPORTING

View state of the art reporting on an employee or organisational level. Export performance reporting to Excel to unpack further.

One Click THREAT REPORTING

Help your users to quickly report detected threats using integrated one-click reporting features using Microsoft Outlook.

We've partnered with the worlds largest security awareness and simulated phishing attack platform to help you manage the ongoing problem of social engineering. As the leader in the Forrester Wave, we as a KnowBe4 partner will help your organisation make the most of your cybersecurity efforts.
